

**Marine litter**  
starts **with you.**

**Stormwater**  
carries litter into  
streams and rivers.

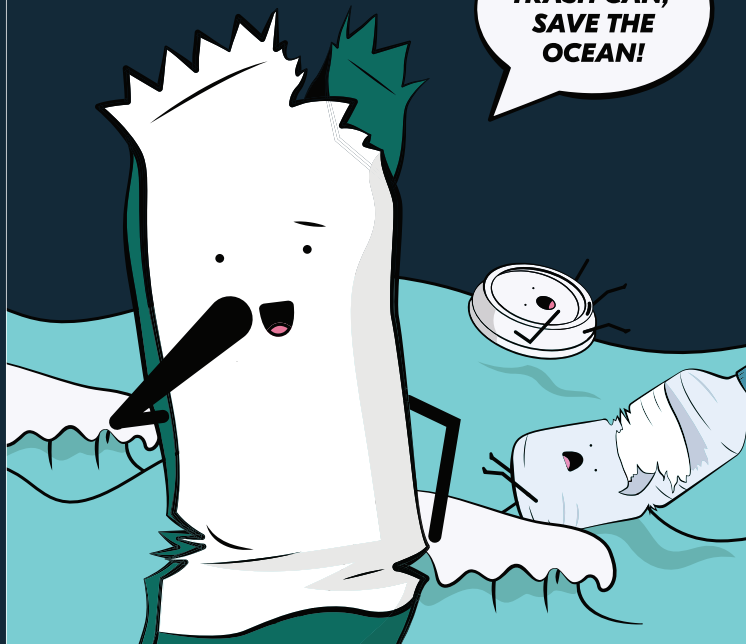

Where it rides **the flow**  
**to new places.**

**Litter** can travel  
from the middle of the  
country to **the ocean.**

**Put litter**  
**in its place.**

**USE A  
TRASH CAN,  
SAVE THE  
OCEAN!**

Litter from cities and inland areas gets carried away by stormwater, canals, and rivers. Last Stop: The Ocean. You can prevent your waste from becoming marine litter!
